

I am the wife of the former head of the village. I lived happy with the whole herd which my husband had and we also have our children who had become adult and independent, we lived abundance. We dreamed of a long old age and enjoy our goods. We tried to do everything which requested Islam: Ramadan, the five daily prayers and tried to do much good actions. The Quran asks us to do enough good actions for that Day of Judgment of God, our good works beyond our misdeeds to gain paradise.

We lived the good life when by a banal disease my husband died. It was the darkest day of my life. I asked myself several questions: How I would live alone, without my husband, without my children and also the question of eternity. Is my husband was in hell or heaven? After a week of reflection I knew I had no reason to live. I was looking for how to die and join my husband and be delivered from these unanswered questions.

One day three men roamed the village and talking to all the inhabitants. When I inquired, I have been informed that they wanted to come to vaccinate our animals for free and they want to know the number of animals that each one has. I figured either they are politicians or they also try to do good things enough to win paradise.

The vaccination campaign was held and a month later they came back and asked us if we want MP3 players to listen to music. This interested me because I lived alone, the music would be for me a good companion. But the music they distributed spoke of Jesus, the world's problems, the paradise of God. Sometime later they asked those who want to follow their curriculum to find out who is really God, I was among the first to agree to follow this program. I can tell you today that this program totally transformed me.

Through this audio Bible study program I discover that God loved me and that Jesus has already paid the price for my salvation. I gave my life to Jesus and he gave me back the joy of living. Since then I live for Jesus. My MP3 player never leaves me. At any time I listen and I ask a lot of questions when the team comes to renew the programs on the players. I'm really happy now and I know that if I die today, my paradise is guaranteed
